

Section D Plot Inspection Report

How to Use this Table: Find your plot number to locate if your plot was cited for any garden issues. Highlighted numbers have been flagged for issues.

What if my plot has a violation?

Address the issue listed in the inspection report by Monday, July 1, 2024.

If you have questions contact your section captain to discuss your issue.

Plot Number	Inspection Grade	Inspection Grade	Plant Diversity	Visibility/Placement of Plants	Paths	Weeds	Trenches	Fences	Trash	Plant Schedule	Other violation	Volunteer Hours Recorded
D01	PASS											>3
D02	PASS											0
D05	Not reviewed											0.75
D06	PASS											0
D08		Plot contains more than 50% of a single type of plant	Tall-growing plants (those that grow taller than 18 inches, like corn) planted closer than 2 feet to edge of plot, Can not see all the way through the plot (e.g., tall-growing or trellised plants affect visibility)	Southern pathway is overgrown and needs weeding/clearing, Eastern pathway is overgrown and needs weeding/clearing, Pathways are less than 2.5 feet (30 inches) on all sides, Is this a plot?	Gardener's plot has significant weeds				There is unbundled trash in the plot (e.g., used water bottles, gloves)	The gardener has not begun planting for the year (e.g., at least 50% planted by June 1)		0
D10	Needs Improvement		Tall-growing plants (those that grow taller than 18 inches, like corn) planted closer than 2 feet to edge of plot, Can not see all the way through the plot (e.g., tall-growing or trellised plants affect visibility)	Southern pathway is overgrown and needs weeding/clearing, Eastern pathway is overgrown and needs weeding/clearing	Gardener's plot has significant weeds				There is unbundled trash in the plot (e.g., used water bottles, gloves)			0
D11	Needs Improvement			Remove trash in south pathway								2
D13	Not reviewed											0
D18	PASS											0
D19	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing		Trench is deeper than 4 inches or standing water is present						0.5
D20	Needs Improvement	Plot contains more than 50% of a single type of plant	Tall-growing plants (those that grow taller than 18 inches, like corn) planted closer than 2 feet to edge of plot, Can not see all the way through the plot (e.g., tall-growing or trellised plants affect visibility)	Eastern pathway is overgrown and needs weeding/clearing					The gardener has not begun planting for the year (e.g., at least 50% planted by June 1)	Fail. The other D20 form is actually D22		0
D21	PASS											3
D22	Not reviewed											0
D23	PASS											2
D24	Not reviewed											0
D25	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing, Pathway grading is dangerous					There is unbundled trash in the plot (e.g., used water bottles, gloves)	No path present between D25 and D26		>3
D26	Needs Improvement			Paths have cardboard on them but they are scattered and trip hazard	Gardener's plot has significant weeds				There is unbundled trash in the plot (e.g., used water bottles, gloves)			2
D27	Needs Improvement			Eastern pathway is overgrown and needs weeding/clearing					There is unbundled trash in the plot (e.g., used water bottles, gloves)	The gardener has not begun planting for the year (e.g., at least 50% planted by June 1)		2
D28	Needs Improvement									The d28 marker has been placed on the d45 lot		2.75
D29	Needs Improvement	Plot contains more than 50% of a single type of plant		Southern pathway is overgrown and needs weeding/clearing, Eastern pathway is overgrown and needs weeding/clearing	Gardener's plot has significant weeds				The gardener has not begun planting for the year (e.g., at least 50% planted by June 1)	Does not appear that they have started yet. Current plants look like they maybe from last yr.		0
D30	Needs Improvement			Path on southside is not wide enough and weedy								3
D31	Needs Improvement			Eastern pathway is overgrown and needs weeding/clearing			Lots of weeds on fence					1.5
D32	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing, Eastern pathway is overgrown and needs weeding/clearing			Falling i to walkway		There is unbundled trash in the plot (e.g., used water bottles, gloves)			0

Section D Plot Inspection Report

How to Use this Table: Find your plot number to locate if your plot was cited for any garden issues. Highlighted numbers have been flagged for issues.

What if my plot has a violation?

Address the issue listed in the inspection report by Monday, July 1, 2024.

If you have questions contact your section captain to discuss your issue.

Plot Number	Inspection Grade	Inspection Grade	Plant Diversity	Visibility/Placement of Plants	Paths	Weeds	Trenches	Fences	Trash	Plant Schedule	Other violation	Volunteer Hours Recorded
D33	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing.				There is unbundled trash in the plot (e.g., used water bottles, gloves)				2
D34	Needs Improvement	Plot contains more than 50% of a single type of plant.		Eastern pathway is overgrown and needs weeding/clearing. Pathways are less than 2.5 feet (30 inches) on all sides								0
D35	Not reviewed											0
D36	PASS											>3
D37	Needs Improvement	Plot contains more than 50% of a single type of plant	Tall-growing plants (those that grow taller than 18 inches, like corn) planted closer than 2 feet to edge of plot. Can not see all the way through the plot (e.g., tall-growing or trellised plants affect visibility)				Too tall, thick, can't see through					0
D40	Needs Improvement				Gardener's plot has significant weeds		Weeds on fence		The gardener has not begun planting for the year (e.g., at least 50% planted by June 1)			0
D41	Needs Improvement					Trench drains into pathway or other garden plot. Trench is deeper than 4 inches or standing water is present						0
D43	Needs Improvement			Eastern pathway is overgrown and needs weeding/clearing. Path on east is <2.5, southside is weedy						Fence looks a little unstable		0
D45	PASS											1.5
D46	Needs Improvement	Plot contains more than 50% of a single type of plant		Southern pathway is overgrown and needs weeding/clearing						The plant diversity is very questionable. If someone could do a double check.		0
D49	PASS											>3
D50	Needs Improvement						Fence is blocking walkway.					0
D75	Needs Improvement				Gardener's plot has significant weeds		Structures and plants leaning against fence					0
D77	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing	Gardener's plot has significant weeds							2.25
D78	Not reviewed											0
D79	Not reviewed											0
D80	Needs Improvement			Eastern pathway is overgrown and needs weeding/clearing								2.5
D81	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing. Eastern pathway is overgrown and needs weeding/clearing								3
D82	Needs Improvement			Southern pathway is overgrown and needs weeding/clearing. Eastern pathway is overgrown and needs weeding/clearing								1.5
D83	Needs Improvement				Gardener's plot has significant weeds			There is unbundled trash in the plot (e.g., used water bottles, gloves)	The gardener has not begun planting for the year (e.g., at least 50% planted by June 1)			>3
